PERFORMANCE OF SHARE/INDEX/COMMODITY/COMMODITY INDEX/ETF SHARE/ETC/FUND/FX RATE/FX INDEX/INFLATION INDEX/INTEREST RATE INDEX/CASH INDEX AND OTHER INFORMATION CONCERNING THE UNDERLYING ASSET(S)

The Securities are linked to the Swedish Technology Fund 15% ER Index (the "**Proprietary Index**" or the "**Index**"), which is a proprietary index. For past performance of the Index and its volatility, see <https://derivative.credit-suisse.com>.

Set out below is additional information on the Proprietary Index. In addition to this information, investors should also refer to the Credit Suisse website (derivative.credit-suisse.com) for further information on the Proprietary Index, and to the benchmark statements in relation to the benchmark families available at <https://www.credit-suisse.com/us/en/investment-banking/financial-regulatory/customer-notice.html>.

The legally binding terms of the Proprietary Index (the "**Index Rules**") are available upon request from the Issuer. Defined terms used in this section but not otherwise defined shall have the meanings ascribed to them in the Index Rules.

ADDITIONAL INFORMATION ON THE PROPRIETARY INDEX

The Proprietary Index is a rules-based index that measures the rate of return of a Credit Suisse International proprietary strategy (the "**Index Strategy**") which aims to provide an indirect exposure to equities through a notional exposure to one mutual fund. The Index Strategy offers:

- A notional exposure to one mutual fund (whose underlying investment strategy is intended to give its respective investors exposure to equity underlyings) through exposure to the base index (the "**Base Index**").
- A volatility control mechanism that adjusts the exposure between the Base Index and a notional cash deposit.

The Proprietary Index is constructed on "notional" investments and described as a "synthetic portfolio" as there is no actual asset held in respect of the Proprietary Index. The Proprietary Index simply reflects a trading strategy, calculated using the value of assumed investments in each of the relevant components.

Both the Proprietary Index and the Base Index measure the rate of return of a hypothetical portfolio consisting of long positions in the Base Index Component, as specified in "Table 1: Base Index Component" below. Long positions refer to the practice of buying an asset with the intention of subsequently selling it at a later stage.

The Proprietary Index can include "leveraged" exposure to the asset classes. Leverage refers to the practice of using financial derivatives or debt to amplify returns, by allocating more than 100% of the Proprietary Index to the asset classes. The Target Volatility Control Weight (as defined below) of the Base Index is capped at 150% (see sub-section: *Volatility Control Methodology* below). The maximum leverage employed by the Proprietary Index is therefore also 150%.

The Proprietary Index is constructed as an "Excess Return" asset. Excess Return means that the level of the Proprietary Index is determined net of the cost of funding and/or borrowing a hypothetical investor would incur if investing in the notional assets that make up the Proprietary Index with borrowed money.

The Proprietary Index implements a mechanism of risk control based on its "volatility". Volatility is a measure of the variation of the level/price of an asset over time, as further described in sub-section: *Volatility Control*

Methodology below.

Main roles and calculation of the Proprietary Index

Credit Suisse International is the sponsor of the Proprietary Index (the "**Index Sponsor**") and also acts as the administrator (the "**Index Administrator**") of the Proprietary Index for the purposes of the EU Benchmark Regulation. The Index Sponsor makes various determinations in accordance with the Index Rules. Representatives of the Index Sponsor comprise the Index Committee.

The Index Administrator may make any change or modification to the Index and/or the Index Rules which may be necessary or desirable for the purposes of ensuring compliance by the Index Administrator with its obligations under the EU Benchmark Regulation and any successor or additional benchmarks legislation or regulation applicable in the United Kingdom.

Credit Suisse International, acting through its Risk Department is the calculation agent for the Proprietary Index (the "**Index Calculation Agent**"). The Risk Department is segregated from the sales, trading, structuring and other front office businesses of Credit Suisse International. The Index Calculation Agent will, in accordance with the Index Rules, calculate and publish the Index level in respect of each day on which the Proprietary Index is scheduled to be published (each an "**Index Calculation Day**"). The level of the Proprietary Index, in respect of an Index Calculation Day, is scheduled to be published on the immediately following Index Calculation Day. In certain circumstances, such publication may be delayed.

All calculations, determinations and exercises of discretion made by the Index Sponsor or the Index Calculation Agent will be made in good faith and in a commercially reasonable manner and (where there is a corresponding applicable regulatory obligation) shall take into account whether fair treatment is achieved by any such calculation, determination and exercise of discretion in accordance with its applicable regulatory obligations.

The level of the Proprietary Index and any other information available on the Proprietary Index as described above will be published in accordance with the Index Rules. Certain information provided in relation to the Proprietary Index levels may pre-date the establishment of the Proprietary Index. Any such data is created on a hypothetical basis in relation to a time when no investment in relation to the Proprietary Index was possible. Investors should review such information in that light and be aware that past performance of the Proprietary Index (whether or not hypothetical) is not indicative of future performance.

Assets Included in the Index

The Proprietary Index measures the rate of return of a hypothetical portfolio consisting of a notional investment to the Base Index (also referred to as the "**Index Component**") and an amount held in cash (the "**Cash Component**") in respect of any amounts not invested in the Base Index. The Base Index measures the performance of a notional investment in a synthetic portfolio consisting of 1 (one) asset (the "**Base Index Component**") as specified in Table 1: Base Index Component below and an amount in the Cash Component.

An investment in the Securities therefore exposes investors to the performance of the Base Index Component which is a mutual fund. As a result, investors should also carefully consider the "Risks associated with Funds (other than ETFs)" set out in the section Risk Factors in the Base Prospectus which are also relevant for the Securities.

Table 1: Base Index Component

Base Component	Index	Bloomberg Ticker	Currency	Asset Type	Return Type	Value	Initial Weight
Swedbank Robur Teknik	Ny	BANINOV Equity	SS SEK	Mutual Fund	Total Return	Net Asset Value	100%

Index Methodology

The Proprietary Index measures the rate of return of a hypothetical portfolio consisting of:

- A notional investment to the Base Index, as described in section: Base Index Methodology;

- A notional investment in the Cash Component in respect of any amounts not invested in the Base Index. The amounts allocated to the Cash Component do not accrue any interest.

The allocation mechanism between the Base Index and the Cash Component is further described in section: Volatility Control Methodology.

The Proprietary Index is denominated in SEK (the “**Base Currency**”) and is calculated net of a 2.00% per annum Index Fee, deducted on a daily basis. Apart from the Index Fee, the Proprietary Index does not incorporate any additional transaction costs or access costs that will be deducted from the level of the Proprietary Index.

Base Index Methodology

The Base Index is an index which measures the total rate of return of a notional investment in a synthetic portfolio consisting of the Base Index Component which is a mutual fund.

The effective weight of the Base Index Component (the “**Weight**”) will be initially set to the Initial Weight as specified in Table 1: Base Index Component above, under the column entitled “Initial Weight”. Such Weights determine the notional exposure of the Base Index to the Base Index Component. The Weight of the Base Index Component is fixed at 100%.

The Base Index is denominated in SEK.

The Base Index does not incorporate any access costs or transaction costs.

The Base Index performance will take into account synthetic reinvestment of dividends for mutual funds after deduction of 30.00% of withholding tax as specified in the Index Rules.

The Base Index is constructed as an Excess Return asset.

With respect to the Base Index Component which is referred to as Total Return in Table 1: Base Index Component, above under the column entitled “Return Type”, the relevant funding cost, being the aggregate of the Funding Rate and the Funding Spread in the relevant currency, as specified in Table 2: Funding Rate, under the columns entitled “Funding Rate” and “Funding Spread”, (each a “**Funding Component**”, and together the “**Funding Components**”) will be deducted from the Base Index Component return to derive the return of such Base Index Component.

Table 2: Funding Rate

Currency	Funding Rate	Funding Basis	Funding Spread
SEK	The rate for deposits of three months in SEK as displayed on Reuters page “STIBOR=”	360	0.00%

Volatility Control Methodology

The Proprietary Index targets a volatility level below/at or around 15% (the “**Volatility Control**”) by allocating its exposure to the Base Index, based on the realised volatility (the “**Realised Volatility**”) of the Base Index (calculated as the Realised Volatility over the preceding 20 Index Calculation Days). The target volatility controlled weight assigned to the Base Index (the “**Target Volatility Control Weight**”) on any Index Calculation Day is equal to the ratio of the Volatility Control to the Realised Volatility of the Base Index calculated in respect of the Index Calculation Day falling 2 Index Calculation Days prior to such day. Realised volatility is calculated formulaically with reference to the magnitude of daily movements (in either direction) for the Base Index. For example, the Base Index would have a higher realised volatility if its level moved by 2% each day than if its level only moved by 0.50% each day. The weight assigned to the Base Index on any Index Calculation Day is equal to the Target Volatility Control Weight. The Target Volatility Control Weight is capped at 150%.

Index performance is linked to the tomorrow-next interest rate

The funding component of the notional portfolio of the Proprietary Index is linked to the rate of interest that

could be earned on a notional investment in three month deposits. An increase in this rate may increase the cost of funding and may therefore adversely impact the performance of the Proprietary Index.

Amendments to the Index Rules; Base Index Component Substitution; Withdrawal of the Proprietary Index

The Index Sponsor may in consultation with the Index Calculation Agent and the Index Committee (who are also part of the Credit Suisse Group AG), supplement, amend (in whole or in part), revise, rebalance or withdraw the Proprietary Index at any time if either (a) there is any event or circumstance that in the determination of the Index Sponsor makes it impossible or impracticable to calculate the Proprietary Index pursuant to the Index Rules (b) a change to the Index Rules is required to address an error, ambiguity or omission, (c) the Index Sponsor determines that an Extraordinary Event (as defined in the Index Rules) has occurred, or (d) the Index Sponsor determines that a Fund Disruption Event (as defined in the Index Rules) has occurred.

Following any withdrawal of the Proprietary Index the Index Sponsor may, but is not obliged to do so, replace the Proprietary Index with a successor index and/or replace the Index Strategy with a similar successor strategy or an entirely new strategy at any time, as it deems appropriate in its discretion.

A supplement, amendment, revision or rebalancing may lead to a change in the way the Proprietary Index is calculated or constructed. Such changes may include, without limitation, substitution of a Base Index Component, or changes to the Index Strategy.

Index Disruption Events

Where, in the determination of the Index Sponsor, an Index Disruption Event (as defined in the Index Rules) has occurred or is existing and subsisting in respect of any Index Calculation Day (a "**Disrupted Day**"), the Index Sponsor may in respect of such Disrupted Day (i) suspend the calculation and publication of the Index level; (ii) determine the Index level on the basis of estimated or adjusted data and publish an estimated level of the Index level and/or; (iii) take any other action, including but not limited to, designation of alternative price sources, reconstitution of the Proprietary Index or temporary close-out of option positions. Such action may not be re-considered in the event that actual or more accurate data subsequently becomes available.

Such Index Disruption Events are included to reflect the fact that the Proprietary Index is an investible index and can be replicated by a hypothetical investor.

Potential Adjustment Events

Where, in the determination of the Index Sponsor, a Potential Adjustment Event (as defined in the Index Rules) has occurred in respect of a Base Index Component which is either an ETF or mutual fund, and that such Potential Adjustment Event has a diluting or concentrative effect on the value of the relevant Base Index Component, the Index Sponsor may (i) make adjustment(s), if any, to the relevant Base Index Component, as the Index Sponsor determines appropriate to account for the diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Fund), and (ii) determine the effective date(s) of the adjustment(s).

INDEX DISCLAIMER

This disclaimer extends to Credit Suisse International ("**CSI**"), its affiliates or designates in any of its capacities. CSI is the sponsor of the Index (the "**Index Sponsor**"). The Index Sponsor also acts as the administrator (the "**Index Administrator**") of the Index for the purposes of Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**BMR**") or any successor or additional benchmarks legislation or regulation applicable in the United Kingdom. The Index Rules and the Index Description are published by CSI or its affiliates. CSI is authorised by the Prudential Regulation Authority ("**PRA**") and regulated by the Financial Conduct Authority ("**FCA**") and the PRA. Notwithstanding that CSI is so regulated, the rules of neither the FCA nor the PRA are incorporated into this document.

The Index Administrator and Index Calculation Agent are part of the same group. CSI or its affiliates may also offer securities or other financial products ("**Investment Products**") the return of which is linked to the performance of the Index. CSI or its affiliates may, therefore, in each of its capacities face a conflict in its obligations carrying out such role with investors in the Investment Products.

In addition, the Index Rules and the Index Description are not to be used or considered as an offer or solicitation to buy or subscribe for such Investment Products nor are they to be considered to be or to contain any advice or a recommendation with respect to such products. Before making an investment decision in relation to such products one should refer to the prospectus or other disclosure document relating to such products.

The Index Rules and the Index Description are published for information purposes only and CSI and its affiliates expressly disclaim (to the fullest extent permitted by applicable law and regulation except for where loss caused by the Fault of CSI or its affiliates) all warranties (express, statutory or implied) regarding this document and the Index, including but not limited to all warranties of merchantability, fitness for a particular purpose of use and all warranties arising from course of performance, course of dealing or usage of trade and their equivalents under applicable laws of any jurisdiction unless losses result from the breach of such warranties where such losses are caused by the Fault of CSI or its affiliates. "Fault" means negligence, fraud or wilful default.

CSI is described as Index Administrator, Index Sponsor and Index Calculation Agent under the Index Rules.

CSI may transfer or delegate to another entity, at its discretion and in compliance with applicable law and regulation, some or all of the functions and calculations associated with the role of Index Administrator, Index Sponsor and Index Calculation Agent respectively under the Index Rules.

CSI as Index Administrator is the final authority on the Index and the interpretation and application of the Index Rules.

CSI as Index Sponsor may in accordance with the conditions and other terms specified in the Index Rules and in compliance with applicable law and regulation, supplement, amend (in whole or in part), revise or withdraw the Index Rules at any time. The Index Rules may change without prior notice. Such a supplement, amendment, revision or withdrawal may lead to a change in the way an Index is calculated or constructed and may affect the Index in other ways.

CSI will apply the Index Rules in its discretion acting in good faith and a commercially reasonable manner and (where there is a corresponding applicable regulatory obligation) shall act independently and honestly in its capacity as the Index Administrator and take into account whether fair treatment is achieved by any such exercise of discretion in accordance with its applicable regulatory obligations, and in doing so may rely upon other sources of market information.

Neither CSI as Index Sponsor nor CSI as Index Administrator nor CSI as Index Calculation Agent warrants or guarantees the accuracy or timeliness of calculations of Index values or the availability of an Index value on any particular date or at any particular time.

The Index relies on data from external data providers and data sources which have been selected and pre-defined by CSI as Index Sponsor and the relevant selection criteria and pre-defined data providers and data sources are stored in an internal database maintained by the CSI. CSI as Index Sponsor may change the data providers and the data sources from time to time in accordance with its internal governance procedures provided that any new data provider or data source meets its requirements. While CSI as Index Sponsor intends to use well established and reputable data providers, there is a risk that this data may be inaccurate, delayed or not up to date. There is also a risk that while the data is accurate, the data feed to CSI is impaired. Such impairment to either the data or the data feed could affect the performance or continued operability of the Index.

Neither CSi nor any of its affiliates (including their respective officers, employees and delegates) shall be under any liability to any party on account of any loss suffered by such party (however such loss may have been incurred) in connection with anything done, determined, interpreted, amended or selected (or omitted to be done, determined or selected) by it in connection with the Index and the Index Rules, unless such loss is caused by CSi or any of its affiliates' Fault. Without prejudice to the generality of the foregoing and unless caused by CSi or any of its affiliates' Fault, neither CSi nor any of its affiliates shall be liable for any loss suffered by any party as a result of any determination, calculation, interpretation, amendment or selection it makes (or fails to make) in relation to the construction or the valuation of the Index and the application of the Index Rules and, once made, neither CSi nor any of its affiliates shall be under any obligation to revise any calculation, determination, amendment, interpretation and selection made by it for any reason. Neither CSi nor any of its affiliates makes any warranty or representation whatsoever, express or implied, as to the results to be obtained from the use of the Index, or as to the performance and/or the value thereof at any time (past, present or future).

The strategy underlying the Index (the "**Index Strategy**") is a proprietary strategy of the Index Administrator. The Index Strategy is subject to change at any time by the Index Administrator or otherwise as required by applicable law and regulations. Neither CSi nor its affiliates shall be under any liability to any party on account of any loss suffered by such party, unless such loss is caused by CSi or any of its affiliates' Fault in connection with any change in any such strategy, or determination or omission in respect of such strategy.

Neither CSi nor any of its affiliates is under any obligation to monitor whether or not an Index Disruption Event has occurred and shall not be liable for any losses unless caused by CSi or any of its affiliates' Fault resulting from (i) any determination that an Index Disruption Event has occurred or has not occurred, (ii) the timing relating to the determination that an Index Disruption Event has occurred or (iii) any actions taken or not taken by CSi or any of its affiliates as a result of such determination.

Unless otherwise specified, CSi shall make all calculations, determinations, amendments, interpretations and selections in respect of the Index. Neither CSi nor any of its affiliates (including their respective officers, employees and delegates) shall have any responsibility for good faith errors or omissions in its calculations, determinations, amendments, interpretations and selections as provided in the Index Rules unless caused by CSi or any of its affiliates' Fault. The calculations, determinations, amendments, interpretations and selections of CSi shall be made by it in accordance with the Index Rules, acting in good faith and in a commercially reasonable manner and (where there is a corresponding applicable regulatory obligation) shall take into account whether fair treatment is achieved by any such calculation, determination, amendment, interpretation and selections in accordance with its applicable regulatory obligations (having regard in each case to the criteria stipulated herein and (where relevant) on the basis of information provided to or obtained by employees or officers of CSi responsible for making the relevant calculations, determinations, amendments, interpretations and selections). For the avoidance of doubt, any calculations or determinations made by CSi under the Index Rules on an estimated basis may not be revised following the making of such calculation or determination.

No person may reproduce or disseminate the Index Rules, any Index Value and any other information contained in this document without the prior written consent of CSi or its affiliates. The Index Rules are not intended for distribution to, or use by any person in a jurisdiction where such distribution or use is prohibited by law or regulation. No one other than CSi or its affiliates is permitted to use the Index Rules or any Index Value in connection with the writing, trading, marketing, or promotion of any financial instruments or products or to create any indices.

CSi does not seek to exclude or restrict any duty or liability it may have to a client under the regulatory system (as defined in the FCA Handbook) and these disclaimers should be construed accordingly. These disclaimers are subject to mandatory provisions of applicable law and regulation which apply to the Index Administrator or (where CSi is the Index Calculation Agent) the Index Calculation Agent and nothing in these disclaimers shall exclude or restrict liability to a client to the extent such exclusion or restriction is not permitted by such law or regulation. Save for the foregoing these disclaimers shall apply to the fullest extent permitted by applicable law and regulation.

The Index Administrator may make any change or modification to the Index and/or the Index Rules which may be necessary or desirable for the purposes of ensuring compliance by the Index Administrator with its obligations under the BMR and any successor or additional benchmarks legislation or regulation applicable in the United Kingdom.

The Index Rules and any non-contractual obligations arising out of or in connection with the Index Rules shall be governed by and construed in accordance with English law.

What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

1. Liquidity risk arising from potential inability to borrow or access the capital markets on suitably favourable terms or to sell its assets. This may also arise from increased liquidity costs.
2. The Issuer may suffer significant losses from its credit exposures, which exist across a wide range of transactions and counterparties and may be exacerbated by adverse market conditions (including the impact of COVID-19), increased volatility in certain markets or instruments or disruption in the liquidity or transparency of financial markets. In addition, disruptions in the liquidity or transparency of the financial markets may result in the Issuer's inability to sell, syndicate or realise the value of its positions, thereby leading to increased concentrations. Any inability to reduce these positions may not only increase the market and credit risks associated with such positions, but also increase the level of risk-weighted assets on the Issuer's balance sheet, thereby increasing its capital requirements, all of which could adversely affect its businesses. Default or concerns of default by one or more large financial institutions could negatively impact the Issuer's business and the financial market generally, and the Issuer's credit risk exposure will increase if the collateral it holds cannot be realised at prices sufficient to cover the full amount of the exposure.
3. Market fluctuations, volatility relating to the Issuer's trading and investment activities (against which its hedging strategies

¹ 2018 numbers have been restated to disclose the impact of discontinued operations. Details are included in CSI's financial statements for the year ended 31 December 2019 at Note 31 – Discontinued Operations and Assets and Liabilities Held for Sale.

² 6M19 numbers have been restated to disclose the impact of discontinued operations and adjustment relating to negative interest on cash collateral. Details relating to discontinued operations are included in Note 19 – Discontinued Operations and Assets and Liabilities Held for Sale.

³ Net Loans are renamed as 'Loans and Advances' to better describe the nature of items under the heading.

may not prove effective), uncertainties regarding the possible discontinuation of benchmark rates and adverse economic conditions may impact the Issuer's financial condition and results of operations. The spread of COVID-19 and resulting tight government controls and containment measures implemented around the world have caused severe disruption to global supply chains and economic activity, and the market has entered a period of significantly increased volatility. The spread of COVID-19 is currently having an adverse impact on the global economy, the severity and duration of which is difficult to predict. This has adversely affected, and may continue to adversely affect, the Issuer's business, operations and financial performance. This impact is likely to continue and to affect the Issuer's credit loss estimates, mark-to-market losses, trading revenues and net interest income, as well as the Issuer's ability to successfully realise its strategic objectives. To the extent the COVID-19 pandemic continues to adversely affect the global economy, and/or adversely affects the Issuer's business, operations or financial performance, it may also have the effect of increasing the likelihood and/or magnitude of other risks described herein, or may pose other risks which are not presently known to the Issuer or not currently expected to be significant to its business, operations or financial performance. The Issuer is closely monitoring the potential adverse effects and impact on its operations, businesses and financial performance, including liquidity and capital usage, though the extent of the impact is difficult to fully predict at this time due to the continuing evolution of this uncertain situation. The Issuer's financial position and cash flows are exposed to foreign currency exchange fluctuations, and this and other market risks could exacerbate other risks to which the Issuer is exposed.

4. The Issuer is exposed to risks from adverse market conditions and unfavourable economic, monetary, political, legal, regulatory and other developments in the countries in which it operates, including ongoing uncertainty over the outcome of the negotiations surrounding the withdrawal of the UK from the European Union, following which the Issuer may not be able to transact legally with the European Union. An element of the strategy of Credit Suisse Group AG and its consolidated subsidiaries is to increase its private banking businesses in emerging market countries. The Issuer's implementation of this strategy will increase its exposure to economic instability in those countries, which could result in significant losses.
5. The Issuer's existing risk management procedures and policies may not always be effective, particularly in highly volatile markets, and may not fully mitigate its risk exposure in all markets or against all types of risk. Moreover, the Issuer's actual results may differ materially from its estimates and valuations, which are based on judgment and available information and rely on predictive models and processes. The same is true of the Issuer's accounting treatment of off-balance sheet entities, including special purpose entities, which requires it to exercise significant management judgment in applying accounting standards; these standards (and their interpretation) have changed and may continue to change.
6. The Issuer's exposure to legal risks is significant and difficult to predict and the volume and amount of damages claimed in litigation, regulatory proceedings and other adversarial proceedings against financial services firms continues to increase in many of the principal markets in which the Issuer operates. If the Issuer fails to manage these risks effectively, this could lead to a decrease in the value of its securities. Regulations applicable to the Issuer (as well as regulations and changes in enforcement practices applicable to its clients) may adversely affect its business and ability to execute its strategic plans. In addition, the applicable resolution and bail-in legislation (including the EU Bank Recovery and Resolution Directive) may affect the Issuer's security holders, who would have very limited rights to challenge the exercise of the bail-in tool, any resolution power or any pre-resolution measure.
7. The Issuer is exposed to the risk that improper behaviour or judgement, misconduct, or non-compliance with policies or regulations by the Issuer's employees results in negative financial, non-financial or reputational impacts on its clients, employees, the Issuer and the financial markets. In addition, the Issuer's position in the highly competitive financial services industry could be harmed by damage to its reputation arising from the factors mentioned above or failures of the Issuer's procedures and controls.
8. The Issuer's business may be disrupted by technology-related failures such as service outages or information security incidents, and the Issuer could be compromised by cyber incidents.

Application will be made to admit the Securities to trading on the NGM Nordic MTF on or around the issue date.

What are the key risks that are specific to the Securities?

1. **Risks in case of an insolvency or resolution measures in respect of the Issuer.** An investment in the Securities constitutes unsecured obligations of the Issuer and will not be covered by any statutory or other deposit protection scheme and does not have the benefit of any guarantee. Therefore in the event of the insolvency of the Issuer, an investor in the Securities may lose all or some of its investment therein irrespective of any favourable development of the other value determining factors, such as the performance of the underlying asset(s). Similarly, if, prior to insolvency, CSi were to become subject to the use of "resolution" measures by a resolution authority (or pre-resolution measures) you could lose

some or all of your investment in the Securities. In addition, the UK resolution authority also has the power to exercise the "bail-in" tool (or pre-resolution powers to write down or convert regulatory capital) in relation to Securities issued by CSI which would result in the write down and/or conversion to equity of such Securities.

2. **Potential loss of some or all of the investment.** The Securities are "capital at risk" investments and investors may lose some or all of their money depending on the performance of the relevant underlying asset(s). If the underlying asset(s) fails to meet the specified threshold or barrier or if the amount payable on redemption of the Securities is less than the purchase price paid by investors for the Securities, investors could lose some or all of their investment. In addition, if the Securities are sold in the secondary market for less than the purchase price paid by the relevant investor, investors could lose some or all of their investment.
3. **Risks in connection with redemption of the Securities at the unscheduled termination amount.** The Securities may be redeemed at the unscheduled termination amount in certain circumstances, including: following the occurrence of an event of default or for illegality reasons or following certain events affecting the Issuer's hedging arrangements or the underlying asset(s). In such circumstances, the unscheduled termination amount is likely to be less than the original purchase price and could be as low as zero and, following any such early redemption, investors may be unable to reinvest the proceeds in an investment having a comparable return. Following the occurrence of any such event, no other amounts on account of interest or otherwise shall be payable by the Issuer in respect of the Securities.
4. **In certain circumstances, the Issuer may adjust the terms of the Securities and such adjustment may have a negative effect on the value of the Securities.** Subject to the terms and conditions of the Securities, if the Issuer determines that any adjustment events, additional disruption events or other events affecting the underlying asset(s) or the Issuer's hedging arrangements or the cost to the Issuer of performing its obligations under the Securities have occurred or if certain events affecting the Issuer's ability to value the underlying asset(s) or make payments have occurred, the Issuer may adjust the terms and conditions of the Securities without the consent of the Securityholders, or may postpone or apply alternative provisions for valuations. Any such adjustment, postponement or alternative valuation could have a material adverse effect on the return on, and value of, the Securities.
5. **A "Participation" factor of less than 100 per cent.** If the performance of the underlying asset(s) is multiplied by a "Participation" factor which is less than 100 per cent., investors will not participate fully in the performance of the underlying asset(s) and the return on the Securities may be significantly less than if the Securityholder had purchased the underlying asset(s) directly.
6. **Risks associated with proprietary indices.** Proprietary indices usually have a limited history and no proved track record and any strategy on which it is based may not be successful or provide a better return than other investments. A proprietary index may include deductions which will act as a drag on its performance and may adversely affect the value of and return on the Securities. Investors may not benefit from movements in a proprietary index in the same way as a directive investment in the components of such index.
7. **Risks in connection with the secondary market.** The secondary market for the Securities may be limited, may never develop at all or may not continue even though the Securities are listed, which may adversely impact the market value of such Securities or the ability of the investor thereof to sell such Securities. In addition, the market value of the Securities will be affected by factors beyond the control of the Issuer, such as the creditworthiness of the Issuer, the remaining time to maturity of the Securities, interest and yield rates, the value and volatility of the underlying asset(s), national and international events and the exchange rate between the currency in which the Securities are denominated and the currency of an underlying asset.

Who is the offeror and/or the person asking for admission to trading?

In particular, the Issuer and its affiliated entities may have interests in other capacities (such as other business relationships and activities) and when acting in such other capacities may pursue actions and take steps that they deem necessary to protect their interests without regard to the consequences for any particular Securityholder, which may have a negative impact on the value of and return on the Securities. In the ordinary course of its business the Issuer and/or any of its affiliates may effect transactions in relation to underlying asset(s) and may enter into one or more hedging transactions with respect to the Securities. Such activities may affect the market price, liquidity, value of or return on the Securities and could be adverse to the interest of the relevant Securityholders.

Vilka nyckelrisker är specifika för Emittenten?

Emittenten är föremål för följande nyckelrisker:

1. Likviditetsrisk till följd av potentiell oförmåga att låna eller få tillgång till kapitalmarknaderna på lämpliga gynnsamma villkor eller att sälja dess tillgångar. Detta kan också bero på ökade likviditetskostnader.
2. Emittenten kan drabbas av betydande förluster på grund av sina kreditexponeringar, som finns över ett brett spektrum av transaktioner och motparter och kan förvärras av negativa marknadsförhållanden, ökad volatilitet på vissa marknader eller instrument eller störningar i finansmarknadernas likviditet eller transparens. Dessutom kan störningar i finansmarknadernas likviditet eller transparens leda till att Emittenten inte kan sälja, syndikera eller realisera värdet på sina positioner och därmed leda till ökade koncentrationer. Eventuell oförmåga att minska dessa positioner kan inte bara öka marknads- och kreditriskerna förknippade med sådana positioner, utan också öka nivån på riskvägda tillgångar i Emittentens balansräkning och därigenom öka dess kapitalkrav, vilket kan påverka dess verksamhet negativt. Misslyckande eller oro för att ett eller flera stora finansiella institut misslyckas kan ha en negativ inverkan på Emittentens verksamhet och finansmarknaden i allmänhet, och Emittentens kreditriskexponering kommer att öka om säkerheten som den innehar inte kan realiseras till priser som är tillräckliga för att täcka hela exponeringsbeloppet.
3. Marknadsförändringar, volatilitet relaterad till Emittentens handels- och investeringsaktiviteter (mot vilka dess säkringsstrategier kanske inte visar sig vara effektiva), osäkerhetsfaktorer om eventuellt avveckling av referensräntor och negativa ekonomiska förhållanden kan påverka Emittentens finansiella skick och resultat. Spridningen av COVID-19 och resulterande stränga regeringskontroller och inneslutningsåtgärder som genomförts runt om i världen har orsakat allvarliga störningar i globala leveranskedjor och ekonomisk aktivitet, och marknaden har gått in i en period med avsevärt ökad volatilitet. Spridningen av COVID-19 har för närvarande en negativ inverkan på den globala ekonomin, vars svårighetsgrad och varaktighet är svår att förutsäga. Detta har påverkat, och kan fortsätta att påverka, Emittentens affärer, verksamhet och finansiella resultat negativt. Denna påverkan kommer sannolikt att fortsätta och påverka Emittentens kreditförlustberäkningar, mark-to-marketsförluster, handelsintäkter och räntenetto samt Emittentens förmåga att framgångsrikt uppnå sina strategiska mål. I den utsträckning COVID-19-pandemin fortsätter att påverka den globala ekonomin och/eller negativt påverka Emittentens affärer, verksamhet eller finansiella resultat kan det också ha en effekt att öka sannolikheten och/eller storleken på andra risker som beskrivs här, eller kan utgöra andra risker som emellertid inte är kända för Emittenten eller som för närvarande inte förväntas vara betydande för dess affärer, verksamhet eller ekonomiska resultat. Emittenten övervakar noggrant de potentiella negativa effekterna och effekterna på dess affärer, verksamhet och finansiella resultat, inklusive likviditet och kapitalanvändning, även om omfattningen av effekterna är svårt att förutsäga för närvarande på grund av den fortsatta utvecklingen av denna osäkra situation. Emittentens finansiella ställning och kassaflöden är exponerade för valutakursförändringar och detta och andra marknadsrisker kan förvärra andra risker som Emittenten är utsatt för
4. Emittenten är utsatt för risker från ogynnsamma marknadsförhållanden och ogynnsamma ekonomiska, monetära, politiska, juridiska, regulatoriska och andra utvecklingar i de länder där den verkar, inklusive risken för ett oordnat utträde av Storbritannien ur Europeiska Unionen, varefter Emittenten kanske inte kan handla lagligt med Europeiska Unionen. En del av strategin för Credit Suisse Group AG och dess konsoliderade dotterföretag är att skala upp sina private banking-verksamheter i tillväxtländer. Emittentens genomförande av denna strategi kommer att öka exponeringen för ekonomisk instabilitet i dessa länder, vilket kan leda till betydande förluster.
5. Emittentens befintliga riskhanteringsförfaranden och policyer kanske inte alltid är effektiva, särskilt på mycket volatila marknader, och kanske inte till fullo mildrar dess riskexponering på alla marknader eller mot alla typer av risker. Emittentens faktiska resultat kan dessutom skilja sig väsentligt från dess uppskattningar och värderingar, som är baserade på bedömningar och tillgänglig information och förlitar sig på förutsägbara modeller och processer. Detsamma gäller för Emittentens redovisningsbehandling av enheter utanför balansräkningen, inklusive enheter med särskilda ändamål, som kräver att den utövar betydande

³ Nettolån har döpts om till "Lån och Förskott" för att bättre beskriva naturen av innehållet under rubriken.

ledningsbedömning vid tillämpningen av redovisningsstandarder; dessa standarder (och deras tolkning) har förändrats och kan fortsätta att förändras. Emittentens verksamhet kan störas av teknologirelaterade fel som t.ex. serviceavbrott eller informationssäkerhetsincidenter, och Emittenten kan komma att äventyras genom cyberincidenter.

6. Emittentens exponering för juridiska risker är betydande och svårt att förutsäga och volymen och beloppet för skador som krävs vid tvister, lagstiftningsförfaranden och andra motsättningsförfaranden mot finansiella tjänsteföretag fortsätter att öka på många av de huvudsakliga marknaderna där Emittenten verkar. Om Emittenten misslyckas med att hantera dessa risker effektivt kan det leda till en minskning av värdet på dess värdepapper. Regler som är tillämpliga för Emittenten (såväl som förordningar och ändringar i tillämpningspraxis som gäller för dess kunder) kan påverka dess verksamhet och förmåga att genomföra sina strategiska planer. Dessutom kan tillämplig lagstiftning om resolution och nedskrivning (inklusive EU:s återhämtnings- och resolutionsdirektiv för banker) påverka Emittentens värdepappersinnehavare, som skulle ha mycket begränsade rättigheter att ifrågasätta utövandet av nedskrivningsverktyget, resolutionsbefogenheter eller någon annan åtgärd inför resolution.
7. Emittenten är utsatt för risken för att felaktigt beteende eller bedömning, felaktig uppförande eller bristande efterlevnad av policyer eller förordningar från Emittentens anställda resulterar i negativa finansiella, icke-finansiella eller ryktesmässig påverkan på sina kunder, anställda, Emittenten och finansmarknaderna. Dessutom kan Emittentens ställning i den mycket konkurrenskraftiga finansiella tjänstebanschen skadas genom skada på dess rykte som beror på de faktorer som nämns ovan eller brister i Emittentens rutiner och kontroller.
8. Emittentens verksamhet kan avbrytas av teknikrelaterade fel som t.ex. serviceavbrott eller informationssäkerhetsincidenter, och Emittenten kan komma att äventyras genom cyberincidenter.

Vilka nyckelrisker är specifika för Värdepapperen?

1. **Risker i händelse av Emittentens insolvens eller resolutionsåtgärder:** En investering i Värdepapperen utgör icke-säkerställda skyldigheter för Emittenten och täcks inte av något lagstadgat eller annat insättningsgarantisystem och drar inte fördelen av någon garanti. I händelse av Emittentens insolvens kan därför en investerare i Värdepapperen förlora hela eller del av sin investering däri oavsett gynnsam utveckling av de andra värdebestämmande faktorerna, såsom utveckling för de(n) underliggande tillgången(arna). På liknande sätt, om, innan insolvens, CSi skulle bli föremål för användningen av "resolutions"-åtgärder av en resolutionsmyndighet (eller åtgärder innan resolution) kan du förlora delar av eller hela din investering i Värdepapperen. Vidare har den brittiska resolutionsmyndigheten även befogenhet att använda "nedskrivnings"-verktyget (eller befogenhet att innan resolution skriva ned eller omvandla regulatoriskt kapital) avseende Värdepapper som emitteras av CSi vilken skulle resultera i nedskrivningen och/eller omvandlingen till aktiekapital av sådana Värdepapper.
2. **Potentiell förlust av delar av eller hela investeringen:** Värdepapperen är investeringar med kapitalet utsatt för risk och investerare kan förlora en del av eller alla sina pengar beroende på utvecklingen för de(n) relevanta underliggande tillgången(arna). Om de(n) underliggande tillgången(arna) inte uppfyller det angivna

tröskelvärde eller barriären eller om beloppet som ska betalas vid inlösen av Värdepapperen är lägre än den köpkurs som investerare betalade för Värdepapperen, kan investerare förlora en del av eller hela sin investering. Dessutom, om Värdepapper säljs på andrahandsmarknaden för mindre än den köpkurs som betalats av den relevanta investeraren, kan investerare förlora en del av eller hela sin investering.

3. **Risker i samband med inlösen av Värdepapperen till beloppet vid oplanerat avslutande:** Värdepapperen kan lösas in till beloppet vid oplanerat avslutande under vissa omständigheter, inkluderat: efter inträffandet av en uppsägningsgrundande händelse eller av olaglighetsskäl eller efter vissa händelser som påverkar Emittentens säkringsarrangemang eller de(n) underliggande tillgången(arna). Under sådana omständigheter är beloppet vid oplanerat avslutande troligtvis lägre än den ursprungliga köpkursen och kan vara så lågt som noll, och efter en sådan förtida inlösen kan investerare kanske inte återinvestera intäkterna i en investering med en jämförbar avkastning. Efter inträffandet av en sådan händelse ska inga andra belopp på grund av ränta eller på annat sätt betalas av Emittenten för Värdepapperen.
4. **Under vissa omständigheter kan Emittenten justera Värdepapperens villkor och sådana justeringar kan ha en negativ effekt på Värdepapperens värde:** Med förbehåll för Värdepapperens villkor, om Emittenten fastställer att eventuella justeringshändelser, ytterligare störningshändelser eller andra händelser som påverkar de(n) underliggande tillgången(arna) eller Emittentens säkringsarrangemang eller kostnaden för att fullgöra sina åtaganden enligt Värdepapperen har inträffat eller om vissa händelser som påverkar Emittentens förmåga att värdera de(n) underliggande tillgången(arna) eller göra betalningar har inträffat, kan Emittenten justera villkoren för Värdepapperen utan tillstånd från Värdepappersinnehavarna, eller kan skjuta upp eller tillämpa alternativa bestämmelser för värderingar. En sådan justering, uppskjutande eller alternativ värdering kan ha en väsentlig negativ inverkan på avkastningen på och värdet på Värdepapperen.
5. **En "Deltagande"-faktor om mindre än 100 procent.** Om utvecklingen för de(n) underliggande tillgången(arna) multipliceras med en "Deltagande"-faktor som är mindre än 100 procent, kommer investerare inte till fullo delta i utvecklingen för de(n) underliggande tillgången(arna) och avkastningen på Värdepapperen kan vara betydligt mindre än om Värdepappersinnehavaren hade köpt de(n) underliggande tillgången(arna) direkt.
6. **Risker förknippade med egna index.** Egna index har vanligtvis begränsad historia och ingen visad resultathistorik och varje strategi som det kan vara baserat på kanske inte är framgångsrik eller ger en bättre avkastning än någon annan investering. Ett eget index kan inkludera avdrag som kan försämra dess utveckling och kan negativt påverka värdet och avkastningen på Värdepapperen. Investerare kan inte dra fördel av förändringar i ett eget index på samma sätt som en direkt investering i komponenterna hos ett sådant index.
7. **Risker i samband med andrahandsmarknaden.** Andrahandsmarknaden för Värdepapperen kan vara begränsad, kanske inte uppstår över huvud taget eller kanske inte fortlöper trots att Värdepapperen tagits upp till handel, vilket negativt kan påverka marknadsvärdet på sådana Värdepapper eller investerarens förmåga att sälja sådana Värdepapper. Vidare kommer marknadsvärdet påverkas av faktorer utom Emittentens kontroll, såsom Emittentens kreditvärdighet, återstående tid till Värdepapperens förfallodag, ränte- och räntevkastningssatser, värdet och volatiliteten på de(n) underliggande tillgången(arna), nationella och internationella händelser och växelkursen mellan valutan i vilken Värdepapperen är denominerad och valutan för en underliggande tillgång.

Betydande intressen i emissionen/erbjudandet

Avgifter får betalas till Distributören(erna). När det gäller att göra beräkningar och fastställelser avseende Värdepapperen kan det finnas en skillnad i intresse mellan Värdepappersinnehavare och Emittenten och dess närstående företag. Särskilt, kan Emittenten och dess närstående företag ha intressen i andra bemärkelser (såsom andra affärsrelationer och aktiviteter) och när det agerar i sådan kapacitet kan det sträva efter åtgärder och ta steg som de finner nödvändiga för att skydda sitt intresse utan hänsyn till konsekvenser för någon särskild Värdepappersinnehavare, vilket kan ha betydande negativ påverkan på värdet av och avkastningen på Värdepapperen. I den ordinarie verksamheten kan Emittenten och/eller något av dess dotterbolag genomföra transaktioner avseende de(n) underliggande tillgången(erna) och kan ingå en eller flera hedgningstransaktioner avseende Värdepapperen. Sådana aktiviteter kan påverka marknadskursen, likviditeten, värdet på eller avkastningen på Värdepapperen och kan negativt påverka intresset för de relevanta Värdepappersinnehavarna.
