

Key Information Document

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Product name	Autocallable Barrier Worst-of Phoenix Note Linked to a Basket of Underlyings
Product identifier	ISIN: SE0014782850
PRIIP manufacturer	Citigroup Global Markets Limited (http://www.citigroup.com/). The product issuer is Citigroup Global Markets Funding Luxembourg S.C.A. with a guarantee by Citigroup Global Markets Limited. Call +44 (0)20 7500 8371 for more information.
Competent authority of the PRIIP manufacturer	Authorised by the U.K. Prudential Regulation Authority and regulated by the U.K. Financial Conduct Authority and U.K. Prudential Regulation Authority
Date and time of production	25 August 2020 16:37 Stockholm local time

You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Type	English law governed notes
Objectives	<p>The product is designed to provide a return in the form of (1) conditional interest payments and (2) a cash payment on termination of the product. The timing and amount of these payments will depend on the performance of the underlyings. The product has a fixed term and will terminate on the maturity date, unless terminated early. If, at maturity, the final reference price of the worst performing underlying has fallen below its barrier price, the product may return less than the product notional amount or even zero.</p> <p>Early termination following an autocall: The product will terminate prior to the maturity date if, on any autocall observation date, the reference price of the worst performing underlying is at or above its autocall barrier price. On any such early termination, you will on the immediately following autocall payment date receive, in addition to any final interest payment, a cash payment equal to the applicable autocall payment. No interest payments will be made on any date after such autocall payment date. The relevant dates and autocall payments are shown in the table(s) below.</p>

Autocall observation dates	Autocall payment dates	Autocall payments
18 October 2021	29 October 2021	SEK 11,000.00
17 October 2022	31 October 2022	SEK 12,000.00
16 October 2023	30 October 2023	SEK 13,000.00
16 October 2024	29 October 2024	SEK 14,000.00
16 October 2025	Maturity date	SEK 15,000.00

Interest: If the product has not terminated early, on each **interest payment date** you will receive an interest payment of SEK 500.00 if the **reference price** of the **worst performing underlying** is at or above its **interest barrier price** on the immediately preceding **interest observation date**. If this condition is not met, you will receive no interest payment on such **interest payment date**. The relevant dates are shown in the table(s) below.

Interest observation dates	Interest payment dates
18 October 2021	29 October 2021
17 October 2022	31 October 2022
16 October 2023	30 October 2023
16 October 2024	29 October 2024
16 October 2025	Maturity date

Termination on the maturity date: If the product has not terminated early, on the **maturity date** you will receive:

- if the **final reference price** of the **worst performing underlying** is at or above its **barrier price**, a cash payment equal to SEK 10,000.00; or
- if the **final reference price** of the **worst performing underlying** is below its **barrier price**, a cash payment directly linked to the performance of the **worst performing underlying**. The cash payment will equal (i) the **product notional amount** multiplied by (ii) (A) the **final reference price** of the **worst performing underlying** divided by (B) its **strike price**.

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the product issuer may terminate the product early. These events are specified in the product terms and principally relate to the **underlyings**, the product and the product issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

When purchasing this product during its lifetime, the purchase price does not include accrued interest on a pro rata basis.

You do not have any entitlement to a dividend from any of the **underlyings** and you have no right to any further entitlement resulting from any such **underlying** (e.g., voting rights).

Underlyings	Ordinary shares of SKF AB (SKFB; ISIN: SE0000108227; Bloomberg: SKFB SS Equity; RIC: SKFB.ST), Atlas Copco AB (ATCOA; ISIN: SE0011166610; Bloomberg: ATCOA SS Equity; RIC: ATCOA.ST) and Volvo AB (VOLVB; ISIN: SE0000115446; Bloomberg: VOLVB SS Equity; RIC: VOLVB.ST) and American Depository Receipts of AUTOLIV INC-SWED DEP RECEIPT (ALIV; ISIN: SE0000382335; Bloomberg: ALIV SS Equity; RIC: ALIVsdb.ST)	Reference price	The closing price of an underlying as per the relevant reference source
Underlying market	Equity	Reference sources	<ul style="list-style-type: none"> SKFB: Nasdaq Stockholm AB ATCOA: Nasdaq Stockholm AB VOLVB: Nasdaq Stockholm AB ALIV: Nasdaq Stockholm AB

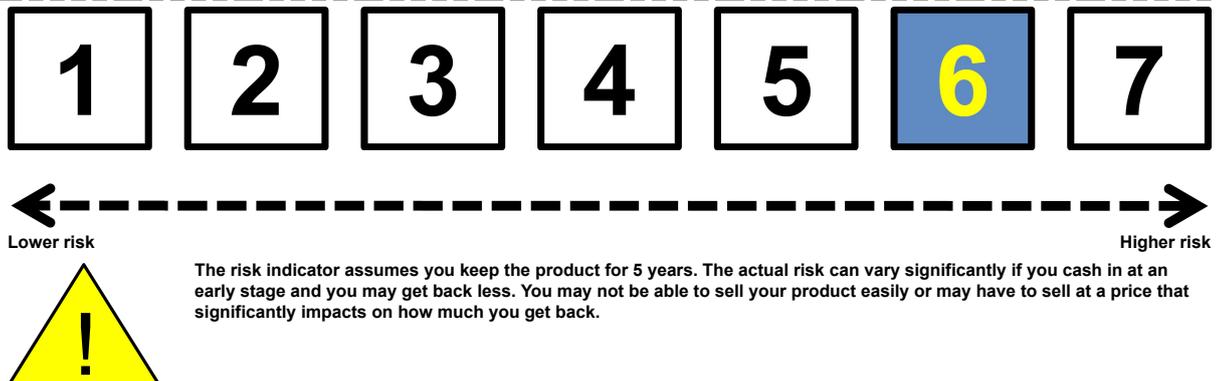

Product notional amount	SEK 10,000.00	Final reference price	The reference price on the final valuation date
Ask price	SEK 10,000.00	Initial valuation date	16 October 2020
Product currency	Swedish Krona (SEK)	Final valuation date	16 October 2025
Underlying currencies	• SKFB: SEK • ATCOA: SEK • VOLVB: SEK • ALIV: SEK	Maturity date / term	29 October 2025
Issue date	29 October 2020	Autocall barrier price	85.00% of the initial reference price
Initial reference price	The reference price on the initial valuation date	Interest barrier price	60.00% of the initial reference price
Strike price	100.00% of the initial reference price	Worst performing underlying	For purposes of the payment at maturity: The underlying with the worst performance between the initial reference price and the final reference price For all other purposes: For a given date, the underlying with the worst performance between the initial reference price and the relevant reference price
Barrier price	60.00% of the initial reference price		

Intended retail investor The product is intended to be offered to retail investors who fulfil all of the criteria below:

- they have the ability to make an informed investment decision through sufficient knowledge and understanding of the product and its specific risks and rewards, either independently or through professional advice, and they may have experience of investing in and/or holding a number of similar products providing a similar market exposure;
 - they seek income and/or capital growth, expect the movement in the underlying to perform in a way that generates a favourable return, have an investment horizon of the recommended holding period specified below and understand that the product may terminate early;
 - they accept the risk that the issuer or guarantor could fail to pay or perform its obligations under the product and they are able to bear a total loss of their investment; and
 - they are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.
- The product is not intended to be offered to retail clients who do not fulfil these criteria.

2. What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 6 out of 7, which is the second-highest risk class. This rates the potential losses from future performance at a high level, and poor market conditions are very unlikely to impact our capacity to pay you.

To the extent the currency of the country in which you purchase this product or your account currency differs from the product currency, please be aware of currency risk. You will receive payments in a different currency so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment.

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

Performance scenarios Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

Investment: SEK 100,000

Scenarios		1 year	3 years	5 years (Recommended holding period)
Stress scenario	What you might get back after costs	SEK 24,716.80	SEK 19,959.35	SEK 11,652.69
	Average return each year	-75.28%	-41.56%	-34.94%
Unfavourable scenario	What you might get back after costs	SEK 48,141.16	SEK 40,626.13	SEK 26,413.92
	Average return each year	-51.86%	-25.94%	-23.38%
Moderate scenario	What you might get back after costs*	SEK 87,243.79	SEK 90,738.26	SEK 115,000.00
	Average return each year	-12.76%	-3.19%	2.83%
Favourable scenario	What you might get back after costs**	SEK 115,000.00	SEK 123,100.00	SEK 130,000.00
	Average return each year	15.00%	7.17%	5.39%

* This scenario assumes that the product early terminates in October 2021 and you do not reinvest the proceeds.

** This scenario assumes that the product early terminates in October 2022 and you do not reinvest the proceeds.

This table shows the money you could get back over the next 5 years under different scenarios, assuming that you invest SEK 100,000.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. In addition, you should note that the results shown

for the intermediate holding periods do not reflect estimates of the product's future value. You should therefore not base your investment decision on the results shown for these interim holding periods.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

3. What happens if the manufacturer is unable to pay out?

You are exposed to the risk that the issuer or guarantor might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not a deposit and as such is not covered by any deposit protection scheme.

4. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest SEK 100,000. The figures are estimates and may change in the future.

Costs over time

<i>Investment: SEK 100,000</i>			
<i>Scenarios*</i>	<i>If you cash in after 1 year</i>	<i>If you cash in after 3 years</i>	<i>If you cash in at the end of the recommended holding period</i>
Total costs	SEK 9,727.41	SEK 10,073.01	SEK 11,373.63
Impact on return (RIY) per year	9.72741%	3.45748%	1.95809%

* The costs are calculated on the basis that the product early termination feature activates in October 2021 and that you do not reinvest the proceeds.

The costs shown in the table above represent how much the expected costs of the product would affect your return, assuming the product performs in line with the moderate performance scenario. Disregarding the impact on your return in that scenario, the estimated entry and exit costs are estimated to be SEK 1,000.00 if you cash in after year 1, SEK 1,000.00 if you cash in after 3 years and SEK 900.00 if you cash in after the recommended holding period.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

The table shows the impact on return per year.

One-off costs	<i>Entry costs</i>	1.95809%	The impact of the costs already included in the price.
	<i>Exit costs</i>	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs*	<i>Other ongoing costs</i>	0.00%	The impact of the costs that we take each year for managing your investments.

* The costs are calculated on the basis that the product early termination feature activates in October 2021 and that you do not reinvest the proceeds.

The costs shown in the table above represent the split of the reduction in yield shown in the costs over time table at the end of the recommended holding period. The split of the actual estimated costs of the product is estimated to be as follows: entry costs: SEK 900.00 and exit costs: SEK 0.00.

5. How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 29 October 2025 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (if the product is exchange traded) or (2) off-exchange, where an offer for such product exists. No fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

Exchange listing	Not applicable	Price quotation	Units
Smallest tradable unit	10,000 units		

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: Citigroup Centre, Canary Wharf, 33 Canada Square, London, E14 5LB, United Kingdom, by email to: EMEA.Markets.Complaints@citi.com or at the following website: <http://www.citigroup.com/>.

7. Other relevant information

The information contained in this Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for individual consultation with your bank or advisor.

The offering of this product has not been registered under the U.S. Securities Act of 1933. This product may not be offered or sold, directly or indirectly, in the United States of America or to U.S. persons. The term "U.S. person" is defined in Regulation S under the U.S. Securities Act of 1933, as amended.

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are available free of charge from Citigroup Centre, Canary Wharf, 33 Canada Square, London, E14 5LB, United Kingdom.
